diana's story

our 22nd homeowner family

more than a roof over our heads

“ This home will be more than a roof over our heads. Our home will be a place where my unique children with unique abilities can thrive. It’s been a dream of mine to have a **therapy room**. This will be a place where my children can have friends come over, and children of all abilities can play together. ”

every home is a building block

“ When I first applied to Habitat, I prayed I would be blessed and qualified. However, I never imagined the blessing I prayed so hard for would come true. In July 2016, my daughters came into this world three months early. Although I had no idea what challenges I would face raising them, I was ready to fight for them. Adrianna and Arianna were both diagnosed Spastic Quadriplegic Cerebral Palsy at 18 months of age. Even before that, we faced a roller coaster of medical challenges, and every time, they overcame each one of them and kept pushing forward. Even when I was ready to break down, they would turn around and smile at me from that hospital, and I knew I would have to find the courage to face adversity regardless of fear or standing alone.

When I was welcomed into the habitat family, I was skeptical of what family meant here. As this process took its course, I met so many wonderful people that are truly loving and caring. Since the day I walked into the office and was given the news, I was stunned. Then, I started going to the ReStore and realized Habitat was truly a family there. As a daughter and mother that is far away from her family, I cannot begin to tell you how much this means to me. My daughters and I have found the biggest family with Habitat. Thank you for welcoming us with so much love, taking our hands in a time of need, and giving us the biggest family hug we have ever received. ”
